

# Endangered Animals

By Ted

My Endangered Animal Is....  
king cobra

Chapter 1  
King cobras eat lizards and  
cats. King cobras also  
eat snakes including  
other cobras!

CHAPTER 2  
King coins are named  
King because they can  
effect other coins.

Chapter 3

Invertebrate means  
Without a backbone.  
Vertebrate means with  
a backbone. Since a  
King cobra has a backbone  
it is a vertebrate.

*It has a backbone!*

## CHAPTER 4

KING COBRAS ARE ENDANGERED  
BECAUSE OF LOSS OF HABITAT.

WITHOUT THEIR HABITAT

THEY MIGHT NOT BE ABLE  
TO SURVIVE.

## Chapter 5

King cobras live in  
south and southeast  
Asia. They live in  
tropical forests in  
those places.
